## 🎯 OBJECTIVE

Seeking to leverage my comprehensive frontend development expertise, combined with a continual pursuit of knowledge in both industrial chemistry and web development, to create seamless, visually appealing, and user-centric web experiences. Committed to contributing innovative solutions that drive business objectives and user satisfaction in a challenging and dynamic work environment.

## 💼 EXPERIENCE

### Front end developer

2023 - Till date

Check retail

- 1.Spearhead frontend development initiatives for a prominent retail company, contributing to the enhancement of user experience and interface design.
- 2.Collaborate with cross-functional teams to translate design wireframes and mockups into functional web pages using React Js and Next Js.
- 3 Implement responsive designs and optimize web applications for maximum speen and scalability.
- 4.Collaborated closely with back-end developers to integrate API calls into frontend code base.
- 5.Used version control systems like GIT to manage source code repositories in a team environment.

### Web developer

2020 - 2022

Innuverk

1. Teaching students in different boot camp hosted around the city.
2. Developed customized web applications.

## 🎓 EDUCATION

### Industrial chemistry

2018 - till date

Federal university of technology akure

Tropical college, kano

2009 - 2014

## 💡 PROJECTS

### Check retail user app

Check Retail is an all-inclusive app that allows users to seamlessly order from supermarkets and restaurants, providing options for delivery or in-store scanning using QR codes. Additionally, it offers functionalities for users to fund their accounts and pay various bills, such as educational expenses, creating a convenient and versatile platform for a range of needs.

### Check Admin

This is tailored for merchant management. Within this app, merchants possess the ability to generate and remove bills, track transactional activities, and gather data on the total student count across different associations. This comprehensive set of tools facilitates effective management and oversight for merchants using the application.
